What is Covered

The XtraRide Powersports Chopper and Custom V-Twin Motorcycle Protection Plan protects your motorcycle against the cost of breakdowns due to mechanical defects. Below is a list of the component groups that are covered:

- ✓ Engine
- ✓ Transmission
- ✓ Basic Electrical System
- ✓ Gauges
- ✓ Fuel System
- ✓ Sound System
(factory installed, speakers excluded)

Limits and Exclusions

Coverage is subject to deductibles, limits and exclusions. The covered parts within each component group are listed in the contract. The contract covers repairs only of covered parts and only when they suffer a mechanical breakdown as defined in the contract. Under some circumstances, a mechanical breakdown of a covered part may not be covered. Examples include if the failure is due to misuse, lack of proper maintenance or when a non-covered part is what caused the covered part to fail. Also, the exclusions contain a list of parts not covered, some of which may be associated with parts that are covered. Examples include the radiator and belts, hoses and lines associated with the engine and throttle, choke and compression release cables and levers associated with the fuel system. Please see vehicle service contract for details.
